- 1143** **1961 350cc Triumph 3TA Twenty One**  
Reg. No. 8194 MV Frame No. H19736  
Engine No. 3TA H19736  
A matching numbers example of the iconic bathtub model from Triumph. Having recently had considerable time and money spent on it this is a very fine example indeed, the cycle parts having been stripped down and the frame repainted, sand blasted and repainted original tinwork, new wiring, seat cover, badges and tank rubbers. The alloy head model has had a new Amal Monobloc carb fitted along with the associated choke control and a new chromed exhaust system whilst the engine has had a top end rebuild with the vendor stating that the honing marks on the bores are still visible. The distributor has also been overhauled and on inspection started from cold easily without any undue noise from the engine department. Supplied with copious invoices, photographic record of its rebuild, MOT documents, current V5C and rear crash bars, the MOT is valid until March 2010 although the 3TA remains unused since the Spring of this year.  
*Estimate £2,700 - £3,300*
- 1144** **1913 500cc New Hudson**  
Reg. No. BF 4246  
Frame No. 2272  
Eng No. 272  
The Birmingham based firm of New Hudsons output of motorcycles really ceased in the 1930's but their pre-war machines were powered by their own engines and this 500cc example harks from that era. The private vendor informs us that the Stoke-on-Trent registered machine has recently had the 3 speed Armstrong hub professionally rebuilt along with new rims and tyres. Importantly the machine is supplied with a Pioneer Certificate giving prospective buyers the confidence that the machine has been scrutinised for authenticity. Consigned from a private collection where it has been on static display with the occasional start up only, a V5C is present on this very presentable flat tank machine.  
*Estimate £9,000 - £10,000*
- 1437 \*** Withdrawn NOW 4no Marshall front weights  
**1452 \*** John Deere 3hp stationary engine
