GENERAL INFORMATION

LOCATION AND DIRECTIONS TO THE SALE

The machinery saleground fronts onto the A142 at Sutton, approximately 6 miles west of Ely, Cambridgeshire and approximately 18 miles north of Cambridge. The recommended approach from the North, West and South is via Huntingdon joining the A141 signposted to March at the junction of the A14/A141. At Chatteris, follow the A142 signposted to Ely and the Saleground will be seen on the left-hand side, opposite Sutton village. Access is gained from the roundabout off the A142 sign posted AGRICULTURAL AUCTION. If approaching from the East or the M11, follow the A10 and join the A142 signposted to March at Ely. Access is gained from the roundabout off the A142 sign posted AGRICULTURAL AUCTION. **PLEASE DO NOT USE THE MINOR ROADS THAT RUN THROUGH THE VILLAGE OF SUTTON**

TELEPHONE NUMBERS

On the Viewing and Sale Day ONLY 01353 777767.

During the Viewing Day will be 07775 866166, 07748 596062 or 07831 732617.

BUYERS' PREMIUM AND VALUE ADDED TAX

A buyers' premium at the following rates will be added to the hammer price.

Class 1 - Tractors, Steam & Other Vehicles 5% plus VAT

Class 2 - Motorcycles 8% plus VAT

Class 3 - All Other Items 10% plus VAT

Items in this sale sold subject to VAT are marked with an asterisk.

COMMISSION BIDS

The Auctioneers are pleased to faithfully execute commission bids on behalf of Purchasers unable to attend the Sale. Such commission bids will only be accepted from persons who have viewed the Sale and completed the requisite bidding form available at the Sales Office.

BIDDING

People wishing to bid for specific lots should assume the rate of selling at approximately 100 lots per hour, although the sale of Motorcycles, Vehicles and Tractors will be less per hour.

BUYERS' BID NUMBERS

The Auctioneers propose to operate a buyer bid number system. Therefore, Purchasers are requested to attend at the Sales Office during View Day or prior to the commencement of the Sale, so that full details of the intending Purchaser's name, address, bankers and other relevant information may be recorded.

Please bring identification, those without will be unable to register and failure to obtain a buyer's bid card will result in the Auctioneer refusing to accept your bid. **If you have a permanent bidding number with us, please use this number.** If you are unsure please enquire in the main office on the viewing or sale day. **PLEASE NOTE: There is a one-off non refundable administration charge of £10 (incl. VAT) for all new purchaser registrations.**

LIGHT REFRESHMENTS

Light refreshments will be available throughout the Sale Day.

CLEARANCE OF LOTS

Purchasers may remove their lots during or after the Sale but ONLY having first obtained a Collection Ticket from the Sales Office. All lots entered for sale inside must be cleared without exception on the Day of Sale. Outside lots must be cleared from the Saleground by Friday, 1st August 2008. Failure by purchasers to remove their lots within this time will incur a penalty storage charge of £5 per lot per day, payable on collection. Purchasers are reminded that ALL LOTS become their responsibility at the fall of the hammer (see Conditions of Sale). **Forklift loading facilities will NOT be available on the day of Sale. We will be open on Sunday, 27th July from 9.00am until 12.00noon, after which the gates will be locked.**

SETTLEMENT OF ACCOUNTS

Buyers are requested to note that all accounts must be settled on the Day of Sale. Persons unknown to the Auctioneers and wishing to pay by cheque must make one of the following arrangements BEFORE the Day of Sale.

- (i) Inform your own Bank Manager that you wish to pay by cheque, tell him the maximum amount you are likely to spend and ask him to instruct our Bankers that it will be in order to accept your cheque. Our Bankers will then inform us. Our Bank is Barclays Bank plc. PO Box No.885, Mortlock House, Vision Park, Histon, Cambridge, CB24 9DE Fax: 01223 545557. Please specify date and place of sale.
- (ii) Arrange with your Bank Manager for the issue of a guaranteed cheque to be brought with you.
- (iii) Provide a letter from your Bank stating the amount up to which your cheque will be honoured. Fax copies and photocopies are NOT acceptable and the letter must specify the sale and date.
- (iv) Overseas payments should be made by Inter Bank transfer using SWIFT to Barclays Bank Bene't Street, Cambridge Sort Code 20-17-19 quoting Cheffins Auction Account Client No. 3 Account No: 50287628.
- (v) Payment can be made by Visa & Mastercard Credit Cards; a surcharge of 1.35% plus VAT will be added to the invoice total for this method of payment. We also accept payment by Switch or Visa/Delta Debit Cards for which there is no additional charge.

MONEY LAUNDERING REGULATIONS 2003

In order to comply with these regulations, we are no longer able to accept cash payment for sums in excess of £7,500. This includes single payments amounting to this sum or multiple payments totaling £7,500.

ENQUIRIES

Enquiries regarding this sale should be made to William King, Jeremy Curzon or Oliver Godfrey at the Cambridge Office Tel: 01223 213777

IMPORTANT NOTICE

HEALTH AND SAFETY PRECAUTIONS

The auction sale includes items of WORKING MACHINERY and those persons attending are advised to take all reasonable precautions to avoid accidents.

We have a duty to increase safety for both our staff and the public wherever possible and the following precautions must be adhered to by all those entering the saleground.

- No lifting of machinery by forklifts, cranes, hiabs or any other means on Sale days. This includes our telescopic and customers own machines.
- No tractors or machinery to be left running. Vendors and Purchasers MUST AT ALL TIMES MAINTAIN SUPERVISION OF SUCH MACHINERY AND VEHICLES when left running.
- Please keep children under supervision at all times. **NO DOGS ALLOWED.**
- Do not drive tractors around the sale yard other than for the purposes of loading or unloading.
- The speed limit in the saleground for ALL VEHICLES is 5mph. **Be aware of pedestrians.**
- Do not smoke in the vicinity of tractors or engines.
- All loader arms to be lowered and contents of buckets emptied.
- If starting tractors across the solenoid, please ensure two people are present, one person being in the driving seat having control of the clutch and brakes, and that the tractor is in neutral.
- Prior to unloading, please check brakes, clutch and position of the engine stop.

These rule applies to everybody, with no exceptions and it will be strongly enforced.

We thank you in advance for your help and compliance.

BE SAFE, ACT CAUTIOUSLY AND WITH CONSIDERATION FOR OTHERS.

FAILURE TO OBSERVE THESE AND OTHER SAFETY PRECAUTIONS PRINTED IN THIS CATALOGUE OR ACTS OF RECKLESSNESS COULD RESULT IN EXCLUSION FROM OUR SALEGROUND.

PERSONS ATTENDING THIS SALE, DO SO ENTIRELY AT THEIR OWN RISK.

ROUTE PLAN

From the A142, follow signs to The Elean Business Park - Agricultural Auctions

- 923 20no Jerry cans
- 924 Hand wind †Wayne petrol pump

MOTORCYCLES

945 1936 600cc Ariel Square Four 4F/6
Reg. No. CXL 772
Frame No. 11249 Engine No. XB351
First registered on the 7th April 1936, CXL 772 was purchased from Pride & Clarke,,s famed dealership sometime in 1938 having hung around in the showroom according to family memory. The purchaser, a lifelong engineer employee at Muirhead Ltd and the son of the seller of the PV (Perfectly Vibrationless) Motorcycle, clearly had a genetic and professional bent toward technical excellence as represented by the Ariel Square Four on its debut. Used as regular ride to work transport, the hostilities of WW11 saw the Ariel climbing to the top of the hill at Petts Wood, on a nightly basis, to man the local Anti Aircraft unit. With the passing of time a young family arrived and in order to accommodate the son and heir a sidecar was added shortly after the birth in 1949, the accompanying image shows the machine and youthful passenger in 1958. 1959 coincided with the arrival of the first family car and the last entry in the buff logbook, the Squariel appears to have then been consigned to the shed, out of sight but firmly in mind. Age soon began to take its toll until, in the mid 1980,,s, the owner,,s son (the vendor) decided that Dad,,s bike should be restored for him. The work was carried out with professional help and practicality in mind and so included a complete rewire and the use of stainless steel and Allen bolts. Restored to a treasured family heirloom, sadly CXL 772, now a solo unit, never saw action again and has remained garage bound with just the occasional start up. Now passed on to the second generation the Ariel is to be offered for sale for only the second time in its 72 year life due to an imminent family move to the West Country. Pleasantly mellowed, the Ariel started first kick on inspection having had a fresh batch of petrol added and would not require much in the way of re-commissioning for immediate use nor indeed, for returning to factory specification. Supplied with a buff logbook covering the period 1952 fi 1959, a 1959 tax disc, a quantity of spares, petrol ration book, a current V5C and nearly three quarters of a century of loving family ownership in the same area.
Estimate £8,000 - £10,000

946 1952/61 500cc Norton Manx Special
Reg. No. 884 PBB
Frame No. 1496500
Engine No. G11M2/46932
This is probably the ultimate in period road legal Norton,,s, conceived over 25 years ago, this special was constructed during the early 1980,,s by Frank Bennett utilising a 1952 Manx 500cc long stroke engine in a specifically modified 1961 slimline featherbed frame with a 1961 Dominator 99 gearbox. The project was approached with military precision and the build file is a complete joy to behold, each stage is detailed with drawings, calculations and lengthy correspondence with various specialists. Indeed Mr Bennett and the legendary Ray Petty seem to have struck up quite a relationship during the course of the build, the file details every nut and bolt and every decision taken and shows in great detail every internal modification made. Mr Bennett,,s vision clearly came to fruition as a run of tax discs between 1986 and 1998 show that the Norton was constantly on the road. It appears that the Manx moved on from its creator around 1992 to a local collector who kept it for the next 14 years before it changed hands to the current custodian in 2006. Purchased with the idea of being a feature in the living room, some aesthetic improvements were made. An original Manx conical hub was sourced from France along with the correct Manx front forks from Andy Molnar, the lighting set was removed and a period type screen fitted. A pair of racing side plates were fitted partly in order to disguise the car type oil filter, the seat unit was changed to a more serious racing type unit and an Amal GP carb,, was put in place of the Amal Mk2 concentric that had been in use. All the parts removed have been retained and will be offered with the Norton. The living room centre piece idea has since been vetoed by influential members of the family and the Slimline Manx Special is now offered for sale. It has not turned a cog whilst in the current custodianship and the last tax disc is dated 1998 as is the last MOT certificate, therefore some re-commissioning for road use will be required. A unique machine and a beautiful one, offered with paddock stand, spares, and full and comprehensive documentation.
Estimate £10,000 - £12,000

947 2006 1450cc Harley Davidson FXDi Dyna Super Glide Trike
Reg. No. EU55 URT
Frame No. 5HD1GV1166K300571
Engine No. GV16300571
This awesome creation should not be confused with the usual scaffold pole and chequer plate creations seen. Built to order by respected trike specialists †Trike Design·, the six speed 1450cc fuel injected Dyna Super Glide has been transformed from the solo machine with the use of many specialist parts. The twin shock, disc braked, wishbone rear end is finished off with a pair of Jaguar style spoked rear wheels complete with †knock on/off· hubs. The original rear wheel has been re-installed at the front end by the use of custom wide slab yokes, tiller bars topped by a †V-Rod· screen finish the fat look at the steering end of things. Equipped with hand brake, forward controls and a 2-1 Super-Trapp exhaust system, the black trike sounds as good as it looks and is fitted with a tow ball should extra equipment require transportation. Capable of carrying two passengers in the capacious rear seat this is not a machine for shrinking violets, you are destined to draw a crowd. Commissioned by the vendor as one of a pair for him and his wife, a recent operation has meant that his trike has to go and he will return to his solo machines. Immaculate in all departments and with just over 2,000 recorded miles, the belt drive Harley trike is complete alarm system, V5C documentation and tax valid until December 08, the manufacturers website www.trikedesign.com is recommended reading. A truly stunning machine for the summer.
Estimate £14,000 - £16,000

948 1956 500cc Triumph T100
Original Regd No: UOH 267 (awaiting re-registration. Authorities have indicated that the machine MAY be supplied it,,s original number)
Frame No. 77458
Engine No. 77458
This fine motorcycle represents the epitome of classic fifties motorcycling. Surely one of the most handsome motorcycles of this era, this Tiger 100 has been lovingly restored by a friend of the Jefferies of Shipley family, and thus with a great deal of Triumph knowledge and passion built in. Bought from a gentleman who had owned the machine for over thirty years, it had fallen into what could only be described as a rusty ruin. However, almost everything about the machine was in original order, albeit neglected, and thus it was thought worthy of restoration. The writer can state with good authority that no stone has been left unturned in an attempt to perform a sympathetic restoration. For example, the chrome parts are all original, not pattern parts, (with the exception of the horn button). In addition, the cycle parts are almost all original, and the frame has been stove enamelled, giving an authentic look to a quality restoration. The engine has been totally rebuilt with new pistons, rings, camshafts, valves and valve springs, seals, and bearings. At the same time, the gearbox was stripped and rebuilt, included the fitting of a new selector mechanism. These tasks were performed by Martin Wilson, (for many years a technician at Allan Jefferies). The speedometer has been restored showing the original mileage at a little over 30,000 miles. The magneto and dynamo were restored by Dave Lindsley, (all receipts available), it now boasts a brand new wiring loom, and the wheels were rebuilt by Bob Wylde. Some of the minor, but important detail will please the classic cognoscenti, such as the correct cheese head screws, and the original †Dunlop· rubber cable ties. All in all, this fine motorcycle represents two years hard work, for the vendor. It is perhaps surprising that the vendor now no longer wishes to keep and use this beautiful machine, however he now has his eyes on a racing restoration, and feels that he enjoys the restoration more than the ownership!
Estimate £5,800 - £6,500

- 949 1934 250cc Frances Barnett #Cruiser**
 Reg. No. CAS 416
 Frame No. DB29817
 Engine No. D3097
 This is the Deluxe 4 speed model with its fully enclosed styling. An eye catching machine that was the subject of an engine rebuild in 1991 by Alpha Engineering. Stated to have covered minimal mileage since, the last MOT expired in 2002, the #Fanny B· is currently on a SORN, supplied with a VMCC dating certificate, V5C, old MOT,,s and various receipts. With coil ignition and Villiers #Autolube· system this is a very practical and useable machine that stands out in a crowd.
Estimate £1,200 - £1,500
- 950 1952 500cc Triumph TRW**
 Reg. No. ESL 812
 Frame No. TRW22909NA
 Engine No. 22909
 This TRW was originally despatched to the Ministry Of Supply for the Royal Navy on 31st October 1952 for use as a despatch riders machine. A dating certificate from the Science Museum Library confirms this along with the fact that both engine and frame numbers are correct. Still retaining the correct canvas panniers and frame, the TRW has now acquired a very fine civilian navy blue paint job. Purchased at the dispersal sale of Cake Street Classics and the personal collection of Roger Sharman in 1999 , the TRW has been maintained very nicely indeed but ridden rather sparingly. A quantity of old MOT certificates confirm the current mileage indicated of just 33,000. Recently sold by Cheffins, the purchaser has since refocused his collection and the TRW is consequently in need of a new custodian. The side valve twin is a machine that can hold its own in modern traffic conditions and benefits from the addition of electronic ignition, an ideal summer toy as well as being a piece of our military history, the TRW comes supplied with a recent MOT and V5 documentation together with the previously mentioned dating certificate.
Estimate £2,400- £2,800
- 951 1980 750cc Triumph T140D**
 Reg No WJX 202V
 Frame No. BA18943
 Engine No. BA18943
 The oil in the frame Triumph Twins were the last of the Meriden motorcycles to roll off the production line. They first appeared in 1971 as 650cc models, enlarging to 750cc in 1973. During the seventies there were many improvements made, and by the end of the decade, Triumph were producing a rather pleasing product. Although they lacked the performance, reliability, and smoothness of the Japanese competition, they nevertheless captured the imagination of a large following of potential motorcycle buyers. The T140D was a special edition with magnesium wheels. This model checks out as very original, save the enamelling of the frame. In extremely good order throughout and just 8,045 recorded miles, the black and gold finish is as per original factory specification for a T140D. The pear shape USA styled fuel tank was always a favourite over the UK spec tank, and even today this motorcycle has a stunning up to date #classic· look.
Estimate £3,750 - £4,750
- 952 1957 250cc BSA C11G**
 Reg. No. PSY 354
 Frame No. EC1210848
 Engine No. BC11G25798
 Apparently an ex museum machine that was not registered until 1996, it would appear that 2005 was the last time the BSA saw legal road action according to the tax disc in situ.
Estimate £800 - £1,200
- 953 1968 175cc BSA Bantam D7 Sports**
 Reg. No. ELG 646F
 Frame No. D14B6110
 Engine No. ED17212
 The vendor states that he believes this to be an American export model and it is in running order having been used until the MOT and tax expired in 2006. Offered for sale with V5 documentation
Estimate £400 - £700

- 954 1986 1000cc Kawasaki GPZ1000RX**
 Reg. No. Q675 KKL
 Frame No. SABTUR03631207412
 Engine No. OAE82110551
 A 1980,,s superbike that remarkably retains most of its OE parts. A new machine means that the #Kwaker· has been relegated and the MOT and tax are now expired. Stated to be in running order but has stood for 12 months, supplied with original sales receipts, V5C and various other documents. The Q plate has been designated due to a discrepancy on the original paperwork, a Kent Police letter covering the re-issue of a Q plate accompanies the machine
Estimate £500 - £900
- 955 1955 125cc BSA Bantam D1/S**
 Reg. No. XVS 314
 Frame No. BD2S***
 Engine No. DDB1931
 The DDB designation of this plunger framed Bantam denotes battery electrics and the 125cc machine represents a very nice little restoration project that the vendor reports to be in running order
Estimate £450 - £650
- 956 1966 350cc Triumph 3TA/T100S**
 Reg. No. OGU 122D
 Frame No. T100S H43285
 Engine No. 3TA/H45859
 Rescued in the 1970,,s from use as a field bike, the owner,,s intention was to put the hybrid Triumph back on the road. To this end the forks and swinging arm were professionally refurbished along with the wheels. Minimal use followed, the vendor states that he covered less than 200 miles in the intervening years, the last MOT expired in 1988 indicating the time at which the Trumpet was consigned to the shed. Now representing a nice project machine, OGU 122D is supplied with a current V5C.
Estimate £850 - £1,000
- 957 1966 250cc Greeves Anglian**
 Reg. No. N/A
 Frame No. 24TGS2503
 Engine No. TBA
 Finished with the grey and red petrol tank, the Villers 37A powered Anglian is fitted with the #Banana· forks standard to the model. A Greeves steel front hub and cush drive rear hub are fitted along with aluminium mudguards, ready to show or trial, the Anglian is offered without documentation.
Estimate £1,800 - £2,200
- 958 Honda TLR200**
 Reg No. A616 PNA
 Frame No. M009-1010796
 Engine No. TBA
 These Honda four stoke trials machines are becoming increasingly difficult to track down, and are rapidly approaching classic status. Little is known of this particular machine,,s past, however, it can be stated that apart from a little bruising on the fuel tank, it appears to be almost totally original, and in full working order. Especially significant is the original undamaged exhaust and silencer. Supplied with a V5, a TLR200 will appeal to a prospective buyer as an ideal greenlaner, (full lighting kit, and ignition switch are supplied), a perfect beginners off road machine, or even a fairly competitive mount in twin shock trials.
Estimate £1,000 - £1,400
- 959 1966 175cc BSA Bantam D7**
 Reg. No. HVT 29D
 Frame No. 2751
 Engine No. SD7-2751
 Stored for many years but kept in the same family, the Bantam has recently been handed on to the next generation, finished in blue and with matching numbers, a V5 document is supplied
Estimate £450 - £700

- 959A Triumph Dayton 759**
 Reg. No. J824 YAO
 Frame No. 000910
 Engine No. TBA
 This is an excellent example of a new Triumph from the first year of the Hinckley production. In 1991 production began from a brand new factory, and it wasn't long before the public recognised their quality in performance and finish. The Daytona 750 was only listed for one year in Glass's Guide, (1992), but they were in fact available for two years, thus making this machine particularly rare. With only two previous owners, and 43000 miles recorded on the clock, the machine is stated to be in first class working order, with all original bodywork, and virtually no sign of deterioration.
Estimate £1,000 - £1,500
- 960 1967 Greeves Anglian**
 Reg. No. N/A
 Frame No. 24THS8
 Engine No. TBA
 With a silver and red petrol tank and the optional Ceriani front forks, this handsome example of the Thundersley trials machine also wears Greeves conical hubs. The Villiers 37A power unit is fitted with electronic ignition and low 1st and 2nd gears, allied with a small engine sprocket this makes for a low geared trials machine that can be used for competition or shows and rallies. No documentation available.
Estimate £1,800 - £2,200
- 961 c1964 175cc BSA Bantam D7**
 Reg. No. N/A
 Frame No. D740096
 Engine No. N/A
 Supplied as a restoration project and to include a quantity of spare parts, no documentation available
Estimate £250 - £400
- 962 1968 175cc BSA Bantam D14/4**
 Reg. No. PCD 957G
 Frame No. PC12441D14B
 Engine No. PC12441D14B
 In original unrestored condition the Bantam was originally a Cornish registered machine (PRL 358G) but was issued with its new Brighton number in 1989. The vendor states that just 9000 miles have been covered from new and the last MOT was in 2005. Stated to be in good running order a green continuation logbook is supplied along with a V5C and current SORN
Estimate £500 - £800
- 963 1985 550cc Kawasaki ZR550 A1**
 Reg. No. B294 OGV
 Frame No ZR550A-000977
 Engine No KZ550DE034933
 With the current owner since 1994 just 41800 miles are recorded on the ZR550 which has been the recipient of two new tyres, chain, rear mudguard, front fork legs & battery. Used regularly until 2003 thereafter occasional use only until final mothballing in 2005 coinciding with the expiry of the tax and MOT. Supplied with V5C document and SORN, some recommissioning will be required.
Estimate £No reserve
- 964 1984 550cc Kawasaki GPZ 550**
 Reg. No. A337 ODY
 Frame No ZX550A003055
 Engine No ZX550DE04492
 First registered in the UK in 1996 when it was imported from Italy. Showing just 57764Km the GPZ was originally bought for spares in 2006 but never made it to the operating table. Taxed and Mot'd when purchased it was used a few times and then left to languish, now offered with V5C, a few service receipts and SORN document
Estimate £No reserve
- 965 c1965 Raleigh Mobylette**
 Removed from the barn and sold as seen
Estimate £No reserve
- 966 c1966 BSA Bantam**
 At the time of writing to be removed from the barn, sold as seen
Estimate £No reserve

- 967 Honda 250 twin**
Believed to be a pre 1964 pressed steel frame model, to be removed from the barn, sold as seen
Estimate £No reserve

1456	Ferguson top link and bars	1507	Pair of road bands, believed to be for E27N
1457	David Brown Case bonnet guard	1508	Ferguson pick-up hitch
1458	Quantity of various plough parts	1509	2no plough discs, believed to be for Ferguson
1459	Quantity of various plough parts	1510	Quantity of plough shares to include Ransomes YL41, YL55, YL52 etc.
1460	Quantity of various plough parts	1511	Allis Chalmers radiator, believed to be for a model C
1461	Quantity of various plough parts	1512	Quantity of Caterpillar parts
1462	Quantity of various plough parts	1513	2no Massey Ferguson 35 Industrial back end #trumpets- c/w half shafts
1463	Pair of spud wheels suitable for standard Fordson	1514	2no Ford 3000/4000 tractor grills
1464	Ex Army 10stud wheels and tyres (1200 x 20)	1515	3no Track Marshall top rollers t/w 2no top roller legs
1465	Ferguson T bar, hook etc	1516	Ferguson PTO extension c/w housing
1466	Ferguson Perkins P3 tractor back end	1517 *	Field Marshall crawler cylinder head
1467	Ferguson Perkins P3 bonnet	1518 *	Fordson 4000 top link part
1468	Perkins P3 engine, dismantled	1519 *	Ford 5000 assister ram
1469	Allis Chalmers Model B engine block	1520 *	Universal wheel extensions
1470	Nuffield clutch and various parts	1521 *	Fordson Major front hubs and 7.50x16 tin wheels
1471	Nuffield bonnet	1522 *	Fordson Major fenders
1472	Nuffield cylinder head	1523 *	Fordson Major nose cone
1473	Leyland 154 square mudguards	1524 *	Fordson Major bonnet
1474	Ford E27N wheel weights	1525 *	Fordson Power Major seat
1475	International cylinder head and IH 414 mudguards	1526 *	Fordson Super Major late type seat
1476	Quantity of International tractor parts	1527 *	Ford 4/5000 Pre-Force nose cone
1477	David Brown drawbar	1528 *	Ford 4000 Pre-Force bonnet
1478	Ferguson pulley	1529 *	Ford 5000 Pre-Force bonnet
1479	Bamford wuffler wheels/hubs	1530 *	David Brown 990 bonnet
1480	Bamford wuffler parts	1531 *	David Brown round fenders (white)
1481	Ford 11x36 8stud rear wheels	1532 *	David Brown 1200/1210 bonnet and nose cone
1482	3stud artillery wheels on axle	1533 *	David Brown seat
1483 *	Quantity of miscellaneous discs, linkage etc	1534 *	David Brown power steering kit
1484	Oliver Cletrac HG42 cylinder head	1535 *	Leyland 384/Nuffield 465 round fenders
1485	Fowler twin cylinder diesel cylinder head	1536 *	Leyland 3point linkage set
1486 *	Massey Ferguson 135 drawbar	1537 *	Leyland 384 power steering kit (complete)
1487 *	Massey Ferguson 135 pick-up hitch arms	1538 *	Leyland bonnet
1488 *	Massey Ferguson 135 drawbar and stays	1539 *	Leyland side grills and front grill frame
1489 *	Massey Ferguson 165 pick-up hitch	1540 *	Nuffield 154 bonnet and fenders (round)
1490 *	Massey Ferguson 135 pto covers	1541	Pair of Massey Ferguson 135 square mudguards
1491 *	Massey Ferguson drawbar	1542	2no 2.25x22 tyres and rims
1492 *	Ferguson stabiliser bars		
1493 *	Massey Ferguson 135 pulley		
1494 *	Massey Ferguson 135 auto hitch		
1495	Ferguson linkage		
1496	David Brown 990 diesel tank and radiator		

1543	Quantity of Ransomes plough parts	1593 *	Nuffield tractor weights
1544	Quantity of assorted parts mainly BMB-President	1594 *	Ford 4000/4600 pick-up hitch
1545	Massey Ferguson 65 11x32 rear wheels	1595 *	Pair of tyres
1546	Massey Ferguson 65 2piece wheel centres	1596 *	Pair of tyres
1547	Massey Ferguson front wheels	1597 *	Pair of tyres
1548	Quantity of Ransomes plough spares	1598 *	Pair of tyres
1549	Quantity of drag points		
1550	Ifor Williams spare wheels		
1551	Quantity of front weights		
1552	8no 7hole blades for ,Innes,, chaff cutter		
1553	Fordson Major E27N cylinder head and starting handle		
1554	Fordson Major belt pulley		
1555	Ford 5000/66 pick-up hitch		
1556	Ford 5000/66 pick-up hitch		
1557	Fordson N front wheels and tyres		
1558	Fordson N rear wheels and tyres		
1559	John Deere front diamond toolbar		
1560 *	2no lower link arms to fit Massey Ferguson 35/135		
1561	Massey Ferguson 35 PTO guard and a pair of internal check chains		
1562 *	Quantity of Fordson Major tractor spares	1618	Ransomes TS90 LH match plough with rear disc, 3 land wheels (modified)
1563 *	Quantity of Ford tractor front weights	1619	Ferguson 2furrow plough c/w discs & skimmers, re-painted
1564 *	Quantity of Ford linkage spares	1620	Plummer 2furrow horse drawn plough
1565 *	Quantity of John Deere linkage spares	1621	Massey Ferguson 3furrow plough
1566 *	Quantity of Ford tractor panels	1622	Cockshut 3furrow trailed plough
1567	David Brown Cropmaster spares, tinwork and tank	1623	Ferguson 3furrow plough stated to be complete and in good condition
1568	David Brown Cropmaster linkage etc.	1626	Ransomes 3furrow plough
1569	David Brown Cropmaster cylinder head, steering column etc.	1627	Ransomes 4furrow plough
1570	Massey Ferguson 12.4/11-28 rear wheel	1628	David Brown 3furrow plough
1571	Ferguson top link, 3no link arms, drawbar spares and 9hole drawbar	1629	Hedge plough
1572	2no small 4.00x10 tractor tyres and tubes	1630 *	Ransomes 3furrow plough
1573	2no small 4.00x10 tractor tyres and tubes	1631	International 3furrow reversible plough
1574	2no small 4.00x10 tractor tyres and tubes	1632	Ransomes RLSD 2furrow match plough
1575	Pair of Ferguson TE20 wings	1633 *	Ferguson 2furrow plough
1576	Ferguson TE20 or 35 exhaust	1634	Plummer 2furrow horsedrawn plough
1577	Ford Dexta exhaust	1635	Massey Ferguson 3furrow plough
1578	David Brown exhaust	1636	Horsedrawn plough
1579	Massey Ferguson 35/135 swinging drawbar	1637	Horsedrawn plough
1580	Massey Ferguson 35 bonnet	1638	Horsedrawn plough
1581	Ferguson TE20 bonnet	1639	Horsedrawn plough
1582	David Brown radiator	1640	Wooden horsedrawn plough
1583	Quantity of Ferguson TE20 spares	1641	Ransomes Robin TS34D plough
1584	Massey Ferguson 35 link bars	1642 *	Nuffield 3furrow plough c/w depth wheel
1585	Ferguson TE20 link bars	1643	Ferguson butterfly plough
1586	Pair of 5,, dia,, steel wheels	1644	Ferguson single furrow plough
1587	County bonnet	1645 *	John Deere ride on sulky plough
1588	Fordson Dexta safety frame	1646	Ransomes 4furrow crawler plough Quintrac No.10
1589 *	Pair of David Brown rear wheel centres	1647 *	Ransomes 2furrow reversible plough
1590 *	Ferguson trailer axle and drawbar	1648	Ransomes No.8 Mortac trailed plough with YL bodies
1591 *	Quantity of David Brown spares	1649	Ransomes horse drawn plough
1592 *	Ferguson pick-up hitch	1650 *	Ransomes plough
		1651	International 3furrow trailing plough
		1652 *	Case 2furrow trailed plough
		1653	Ransomes Dauntless cultivator with added potato ridgers
		1654	Massey Ferguson 30 13row disc coulter grain & fertiliser drill
		1655	Massey Ferguson rear tipper bucket
		1656	Ferguson FE35 loader
		1657	Fordson Dexta loader
		1658	Twose transport box, 5,, manual tip with tailgate

**TRACTOR AND HORSEDRAWN EQUIPMENT,

STEAM ENGINES AND OTHER VEHICLES

1759 1968 2.4 litre Jaguar Mk2 240

Reg. No. SNX 448G

Chassis No. 1J3470DN

Engine No. 7J4113/8

The six cylinder bright red Jaguar has led a cosseted existence in the last 4 years. At this point the restoration was completed and many local rallies and shows were visited with some prizes won. Prior to this it was believed to have been used as a wedding car, it's earlier history is not known. The rebuild was photographically chronicled at all points and the file is presented with the car. The vendor states that both the engine and the suspension have been rebuilt and all box sections and sills have been pressure treated. The 240 engine is fitted with an E-Type straight port head with twin SU carburettors, the 4 speed manual box is fitted with overdrive and electronic ignition ensures clean running. The bright work has all been re-chromed and the signature wire wheels are stated to be new, the interior woodwork has been stripped back and re-varnished and the headlining has been refurbished. With just 70,000 unverified miles recorded the vendor describes the Jaguar as #A1· all round, supplied with 12 months tax and MOT, V5C documentation, Jaguar Club valuation certificate and history file, this is a fine example of an instantly recognisable classic.

Estimate £9,000 - £12,000

1760 1929 Austin Berkeley Heavy 12/4

Reg. No. GF 8824

Chassis No. 61917

Car No. 6TC-3102

A fine example of the respected Austin marque and an ex wedding car that was previously owned by the the Austin Vintage Club chairman and was cared for in his ownership by the current owner. Stated to be in very original condition with the original blinds, roof lining and piping to the interior along with window winders etc. A fully retractable sunroof is fitted and the interior leather upholstery was renewed during the 1970,,s. The vendor states that a recent service overhaul has been carried out at the same time as the MOT was issued (valid until 27.4.09), ready to go, this is an eye catching vehicle with the potential to earn it,,s keep as a film extra and wedding car, supplied with V5C documentation.

Estimate £14,500 fi £16,500

1761 1972 3500cc Rover P6

Reg. No. SVV 392K

Chassis No. 48100670A

The V8 SD1 engined Rover is finished in Mexico Brown and has had the vinyl roof recovered. Capable of running on unleaded fuel, the engine core plugs have been replaced and extensive body and chassis restoration has been carried out. Fitted with a Borg Warner 65 gearbox, the MOT is valid until September 2008 as is the (duty free) road tax, a good period automatic supplied with V5

Estimate £2,500 - £3,500

1762 1972 1800cc MG BGT

Reg. No. MUL 915L

Chassis No. GHD5-300442G

Engine No. 530

With just 2 previous owners this unusual automatic example of the BGT variant carries just 16,000 original miles and a full history file from new. Benefiting from new tyres, exhaust, battery and improved parabolic rear springs, this is a tax exempt vehicle that is stated to be in very good condition with sound chromework and full 12 months MOT and tax disc.with V5C documentation

Estimate £4,500 - £5,500

- 1763 1983 3000cc Ferrari Mondial Quattro Valve**
Reg. No. B438 OPJ
Chassis No.55807
Three litre, double overhead cam,,s, 4 valves per cylinder, 140mph, crikey! This right hand drive example in red (what else?) has been owner maintained for the last 3 years and he states that there are no known faults. Used only on dry high days and holidays, just 46,000 indicated miles are recorded, supplied with V5C, MOT until April 2009, tax until September 2008 and some early service history. To be driven to the sale, there are not many chances to own an affordable Ferrari with potential for rear seat (small) passengers
Estimate £10,000 - £12,000
- 1764 1928 3400cc Austin 20 Pick Up**
Reg. No. XI 8810
Chassis No. 4334
Engine No. 5999-6
The 20hp 6 cylinder Austin was supplied new into Northern Ireland and still bears the appropriate registration number, a green continuation logbook demonstrates that the Austin was still in Ireland in 1979 in pick up form. Sitting on steel artillery wheels the 4 speed truck is stated by the vendor to be in excellent condition, the cab interior was professionally refurbished in blue to contrast with the smart red livery and all of the instruments are stated to be in full working order. Mot,,d until August 2008 the Austin is a must for shows and rallies, a most eye catching commercial vehicle supplied with Mot, old green logbook and current V5C.
Estimate £7,000 - £8,000
- 1765 1951 2500cc Morris LC3 Tipper**
Reg. No. N/A
Serial No. LC326814
Engine No. NPFC39778
Stated by the vendor to be in good condition and in running order, the little tipper is supplied without documentation.
Estimate £3,500 - £4,500
- 1765A c.1940,,s DENNIS chassis & cab**
Reg. No. MRT 616
Chassis No. 388D11
Engine No. 159997 E294
Cab No. 42680
Bearing an Ipswich arear registration number and described by the vendor as being in original condition. A project for restoration. No documentation.
- 1766 * 1975 LAND ROVER Series III Diesel Hard Top**
Reg. No. LFW 294P
Fitted with 88 wheelbase and described by the vendor as being in good genuine condition.
- 1767 1976 850cc Reliant Robin**
Reg. No. SGN 953R
Stated by the vendor to be in #fair mechanical condition, MOT expired 1998, V5C supplied
- 1768 c.1955 Children's 8car jet ride c/w FORD Cargo 7.5t LORRY**
The ride manufactured by Modern Products is stated to be in good working order although currently without test certificate, the air compressor is supplied and the whole outfit fits into the MOT exempt lorry which can be driven on a car license
- 1769 1985 SHERPA 350D twin wheel high top 2berth CAMPER VAN**
Vendor reports this camper is taxed and MOT until October 2008 and has been well maintained, fitted with basic facilities!
- 1770 * 1958 TASKER LOWER LOADER TRAILER**
In very tidy condition and tested to December 2008
- 1771 SEB International TRAILER**
With hydraulic tilt body and beaver tail, 16ft long fitted with winch, gross weight 3500kg
- 1772 * MASSEY FERGUSON 780 Special 10ft cut COMBINE HARVESTER**

1773 1925 WALLIS & STEEVENS ADVANCE ROAD ROLLER

Reg. No. RO 895

Engine No. 7836

Built: July 1925

Motion

Forming part of the Holkham Hall collection, Norfolk, this wonderfully original Luton registered engine has formed part of the collection for many years having been in the ownership of Richard ,Dick,, Joice since at least 1961. In recent years the engine has seen little use and only occasionally steamed and has been a static exhibit in the museum. The requirement for space and rationalisation of the exhibits means that the engine is now surplus to requirements. The engine offers an excellent opportunity to acquire a road roller with good provenance and in good condition whilst also requiring work to bring it into a serviceable steam roller. Last hydraulic test to 210psi in 1998, last yearly examination 2003.

Prospective purchasers are advised to inspect the previous boiler inspections available from the auctioneers.

Estimate £25,000 - £35,000

1774 MARSHALL SONS & CO LTD STEAM TRACTOR #Gleneagles

Reg. No. SL 1314

Engine No. 83217

Built: March 1928

Motion: Single cylinder, piston valve

From the same stable as the 1913 Marshall Sons & Co Ltd steam tractor and having been the subject of a conversion and very well presented. Not much is known of its early history although it was originally registered with its existing Dundee registration number on 4th April 1928. In the early Seventies it was in the ownership of a Dr William Young of Falkirk, which is presumably where it acquired its name ,Gleneagles,. From information supplied it is understood that the engine was re-tubed in 1972 and 1998. The front tube plate was also built up to original thickness in 1998. The engine has not been rallied in recent years and would have only seen limited use since its last hydraulic test. The last boiler examination dated May 2000 quotes a safe operating limited of 160psi. The engine will be offered for sale with a copy of a duplicate logbook, previously boiler certificate and the front roller section.

Estimate £50,000 - £70,000

1775 1913 MARSHALL SONS & CO LTD STEAM TRACTOR

Reg. No. BE7805

Engine No. 61307

Built: May 1913

Motion: Compound slide valve

This superbly presented Lincoln registered steam tractor originally started life as a road roller and is believed to have been used for thrashing and general haulage work according to information supplied by the vendors. Following the end of the WWII it was owned by several Lincolnshire farmers including J W Kitchen of Saxilby and H Epton & Son of New Bolingbroke, Boston. By 1958 the engine had found its way into the ownership of T B Raisley of Holywell, Huntingdon. It was sold at Tom Raisley,,s renowned auction sale, following his death, at Holywell in 1980. The late George Byerley purchased this engine from Mr K Peach of Bubwith, Yorks in 1992 in a derelict and dismantled condition. An extensive restoration was undertaken including the manufacture of new front wheels to replace the front roller, axle, smoke box, perch bracket, lagging, brass caps, coal bunker, which were all hand-made in the workshop by Mr Byerley at Welton Hall. He also states in notes written before his death that ,there are over 60 hand made parts in each front wheel,,. Excellent solid rubber tyres have also been fitted all round at a cost of £2,000, which Mr Byerley reflects is three times the cost of the engine when sold in 1913. In addition Mr Byerley adds that 1,000 hrs of work went into the restoration of this engine. The engine represents an excellent restoration and conversion of which the deceased could be rightly proud. The engine is offered for sale with a buff continuation logbook showing the date of original registration as being 4th March 1921. The last hydraulic test was carried out by Vulcan on 17th March 1999 to 200psi and it will be offered for sale with a current boiler certificate.

Estimate £50,000 - £70,000

**1776 MANN PATENT STEAM CART & WAGON
CO LTD STEAM WAGON #Uncle Walt-**
Reg. No. TF 2598
Engine No. 881
Built: 1914
Motion: Compound, 2speed
Just one of four Mann steam wagons known to be in preservation of a total of just 12 Mann steam engines left in existence in the UK. Established by J H Mann, who was formerly apprenticed to J & H McLaren & Co and the Marshall & Sons in Leeds in 1894, the business manufactured steam engines and stationary engines. By 1901 the business had moved to Pepper Road, Leeds and the period up to and including the first World War was to be its most successful. The company concentrated production on 3ton and 5ton wagons although there were many variations from brewers wagons to municipal dust carts. This particular Reading registered example was built for use on the battlefields of France pulling guns as a tractor. On its return to England it was purchased by Fylde Council for general haulage and then to well-known road makers Isaac Balls and used as a light roller. It is understood that the engine was sold into preservation in the last 1950,,s to Messrs Cole Bros of Leeds but no work was carried out. Following its acquisition by Gerry Proctor of Nidd the engine was stripped down and put into storage. In 1984 it was purchased by I & D Fearnley & Son and restored to its present condition. In 1991 it received a new fire box, smoke box, tube plate, tubes, boiler barrel, chassis, water tanks, bunkers, cab & body, in addition the wheels received new rubber tyres. It is offered for sale with current (February 2008) boiler certificate.
Estimate £60,000 - £70,000

**1777 AVELING & PORTER LTD Class C 4nhp 8ton
STEAM ROAD ROLLER**
Reg. No. FX 8388
Engine No. 10017
Built: November 1921
Motion: single cylinder
Originally supplied new to Newton Abbott Council in 1921 and acquired by R Dingle & Sons, Cornwall in 1949. It was brought into preservation in 1966 when purchased by John Dines of Maldon, Essex. Purchased by the present owner in 2004. The engine is in good condition and was last rallied at Barleylands in August 2007. The engine has at some time previously been fitted with a three-quarter length canopy although the engine was not originally fitted with one. It is understood that the canopy is of Fowler engine having previously been fitted to a Fowler engine. Re-tubed in 2003 it was hydraulically tested in April 2006 and is offered for sale with a current boiler certificate to full pressure. There is an extensive file containing previous boiler certificates which details works having been carried out. The sale offers the opportunity to acquire a good useable engine.
Estimate £27,000 - £30,000

1778 Half-size scale model of J&H McLarens compound steam road locomotive
Reg. No. DX57 RHO
Built over 4.5years and completed this year (2008) by Mr J Clarke of Newcastle, Staffs, this excellently engineered model has been constructed based on #Double B Designs. The engine is registered for use on the road and is offered for sale with V5C logbook, current boiler pressure test which is for 20years from the date of commission.
Estimate £55,000 - £60,000

1779 * 1899 CHARLES BURRELL & SONS LTD 7hp single cylinder TRACTION ENGINE
 Reg. No. BW 4424
 Engine No. 2159
 Built: 1899
 Motion: single cylinder, rated at 7nhp
 Supplied new to James Bale of Winmarleigh, Lancashire the engine was returned to Norfolk on a date not recorded but believed to be circa.1903-1905 to J Carter of Great Ettingham. By January 1921 she was sold to E & N Morley of Brize Norton, Oxon and it was at this time the registration mark BW 4424 was allocated. On a date not recorded she was acquired by the well known engine dealers Messrs Edwards of Swindon, where she remained until c.1968. It is understood that a restoration project was undertaken in the Birmingham area before she was included in the Longparish Museum. In 1986 she went to Necton to join Ricahrd Parrotts collection where she remained until early 2007. Amongst some of the earliest recorded Burrell engines No. 2159 was a regular at the Weeting Steam Rally and used for threshing demonstrations at various other shows. The current boiler certificate dated 14th July 2006 records that the fire box was renewed in 1978 and retubed in 2003. Hydraulic test carried out earlier this year and there is a current boiler certificate to a reduced pressure testing.
Estimate £Refer to Dept.

1780 RUSTON, PROCTOR & CO LTD Class SHA 7nhp COLONIAL PLOUGHING ENGINE
 Reg. No. N/A
 Engine No. 44180
 Built: May 1912
 Motion: single cylinder
 From information supplied this engine had been working in the far east and was purchased in a derelict condition from Sylip Plantations Inc in the Philippines. Between 1985 and 1988 some restoration work was carried out in Singapore however it was returned to the UK for the fitting of a new boiler and box by H Smith & Sons, Lincs and Stuart Woodbine. Further work to the pipework and safety valves was carried out by Hickey of Richmond and by Jack Wharton of Oxon. The restoration work has been carried out in accordance with the original Ruston, Proctor drawings. Offered for sale with current boiler certificate.
Estimate £45,000 - £55,000

1781 JOHN FOWLER & CO (LEEDS) LTD Class D2 Convertible 12tonne STEAM ROAD ROLLER/TRACTION ENGINE
 Reg. No. N/A
 Engine No. 11095
 Built: February 1908
 Motion: compound
 Offered for sale as a total rebuild and fitted with rollers. The engine has been partly dismantled and there are a large number of boxed parts which is offered for sale with the engine. It is understood that the engine was originally supplied in Yorkshire before spending much of its working life in Aberdeen before being purchased by the present owner in 1989.
Estimate £25,000 - £30,000

VINTAGE AND CLASSIC TRACTORS
