County 1474

Registration BFW699X

Serial No 48211

The complete restoration process including photos and parts used.

The Tractor was purchased in July 2018 and was in a good working farm condition. The Tractor was accessed by County Tractors of Ower. It was decided at this point that there was a fair amount of small jobs to do and a few larger jobs which would involve the tractor needing to be stripped down.

We decided at this point that if we were going to strip the tractor down then we would be better to go through the whole tractor, We also discovered that the tractor had been painted in places over the years and was not the original paint work.

In the beginning of 2019 the tractor was sent to James Cardus who was at the time working for Mark Johns Motors. I had seen a lot of his work posted on Facebook on his page restoring classic tractors and his work and attention to detail seem to a very high standard. As you will see from the finished picture he did not disappoint and produced what I would say is one of the best County 1474 restorations ever completed.

This document has been prepared to detail the work carried out and show the whole process, so the next owner will have a comprehensive guide to the restoration of this tractor.
